MEMORANDUM FOR: Chief, Operations Group, OTS

FROM:

Chief, New Building Project Office, OL

SUBJECT: Request for Loan of Transceivers

Forward - Toss

File: 25X1

1. With the start of construction at Headquarters, the need for a low power radio net among staff members has become evident. Action has been taken to procure Motorola vhf Handi-Talkies, but we are advised that these units are long lead items. The Office of Communications (OC) has no units available for our loan.

2. Based on discussions with [] of your staff, we understand that several uhf units may be available to us on a temporary loan. These units are understood to be crystallized on 480.680 and 481.260 MHz. A check with OC discloses no opposition to use of these frequencies at Headquarters.

3. It is therefore requested that four uhf transceivers be loaned to this staff for up to 6 months. We would also need compatible battery chargers and carrying cases or belt hooks. Points of contact are [] or myself or []
